
FoRTrace

[Fortified Rice Traceability Application]

User Manual for Warehouses

The warehouse comes fourth in line of the supply chain of the Rice fortification. The warehouse received lots from miller and FRK, after receiving lot warehouse can directly accept the lot/directly reject the lot which is then sent back to miller/FRK or send sample to local lab for self-certification, if lab report results are within range then after self-certified lots are automatically accepted else lots are rejected and change the stage as lot to send back which is further send back to miller/FRK. The accepted lots from FRK and miller can be sent to another warehouse and to another manufacturers.

1.1 Process:

The key functionalities that occur at warehouse level is as described below.

1. There will be 2 roles at warehouse vendor level, admin has access to both.
 - a. Approver: Who receives Miller/FRK lots and acknowledge and verify the lot quality and get it tested at lab if required and finally either approve the Lot or reject the lot and also can dispatch lot to another warehouse.
 - b. User: same as approver.

The functionality of miller manufacturer is described below in detail:

1.2 Login

Figure 1: Login page for warehouse admin

To log into the system as a miller admin, go to following link <https://fqms.fssai.gov.in/>

A login page will be displayed

- **Username:** Enter a valid username
- **Password:** Enter a valid password
- To continue, click on the Login button.

On successful login, the landing page will be shown

1.3 Lot Approval by Warehouse Admin:

- (i) Click on All/Lot dispatched from side menu, Admin can see list of lots that are present at warehouse from Miller vendors in Miller Lots and lots from FRK vendors in FRK lots.

Miller Lots

Lot Number	Manufacturer Lot	Manufacturing Date	Expiry Date	Total Quantity	Remaining Quantity	Stage	Lot	Created By

8_2402_M_8000_107		05-Feb-2024	05-Feb-2024	20 Kg	20 Kg	Rejected		Not_Rec_Stat

Figure 3: Dashboard showing FRK lots with different stages

- (i) Click on a lot, user will get MILLER/FRK LOT DETAILS page. To acknowledge lot is received, click on **Lot Received** as shown in below image.
- (ii) It updates the status of Lot from Lot dispatched to lot received and MILLER vendor will also get the updated status of Lot that lot is been received by Warehouse.

- (iii) User has to enter the date on which lot is received and comments if any and click yes on popup while acknowledging that lot is received. A prompt will be shown that lot is received.

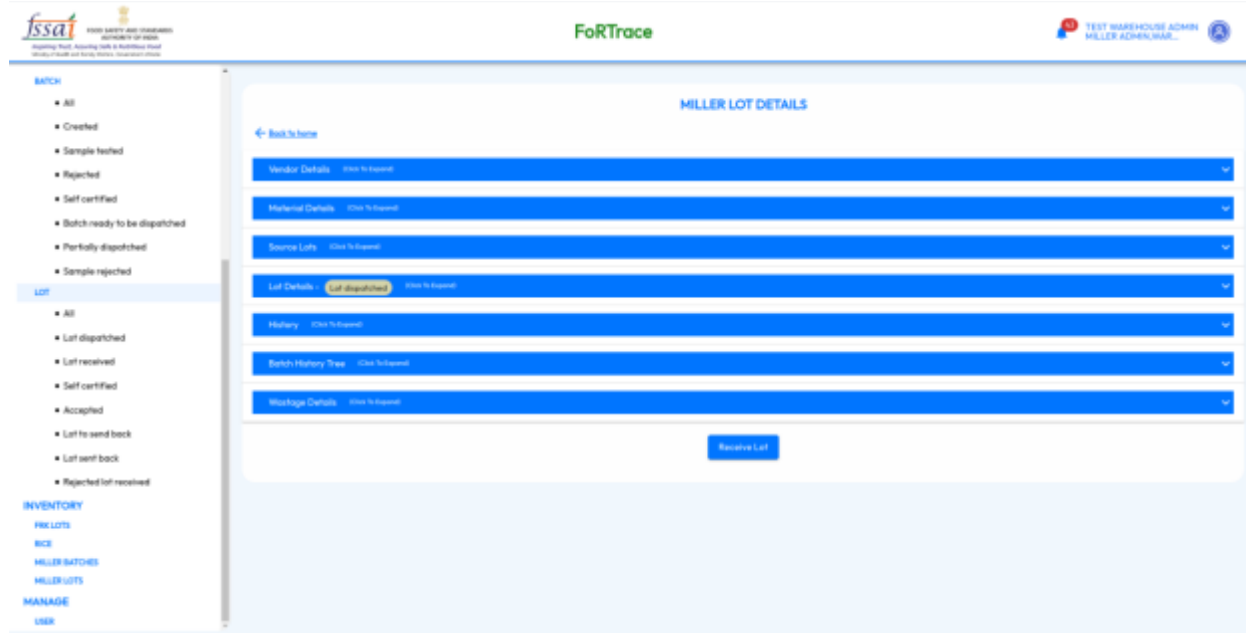

Figure 4: MILLER lot details page

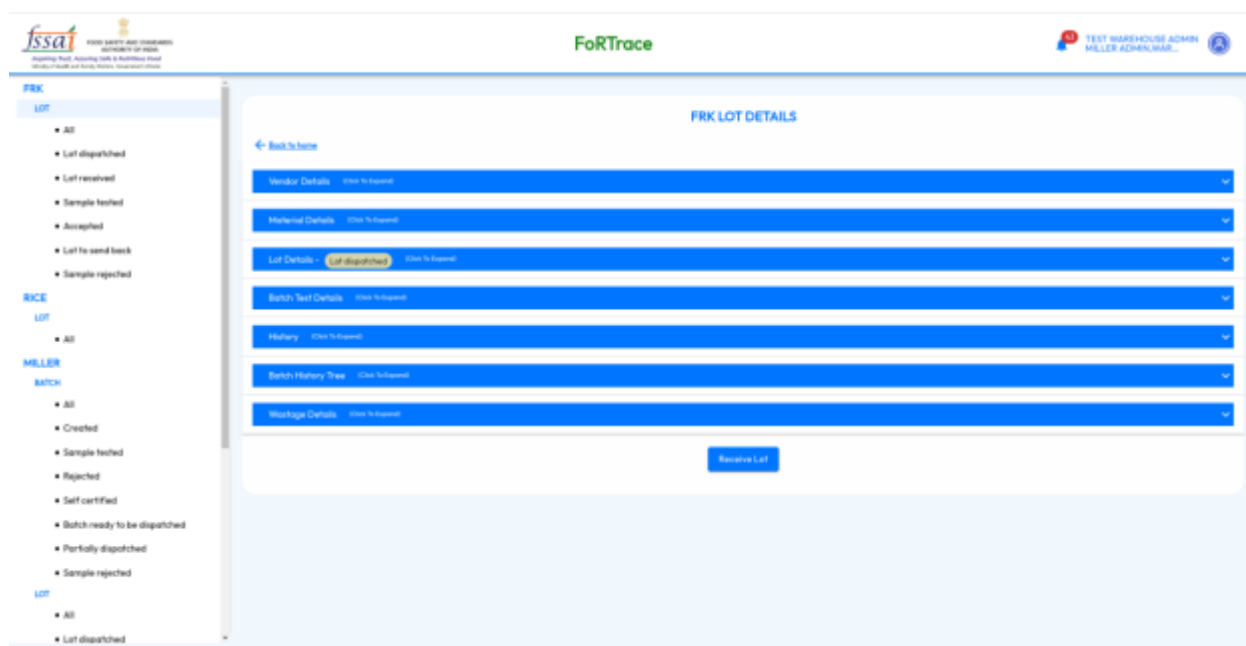

Figure 5: FRK lot details page

- (iv) Clicking on lot received from left side menu populates list of lots acknowledged by admin.

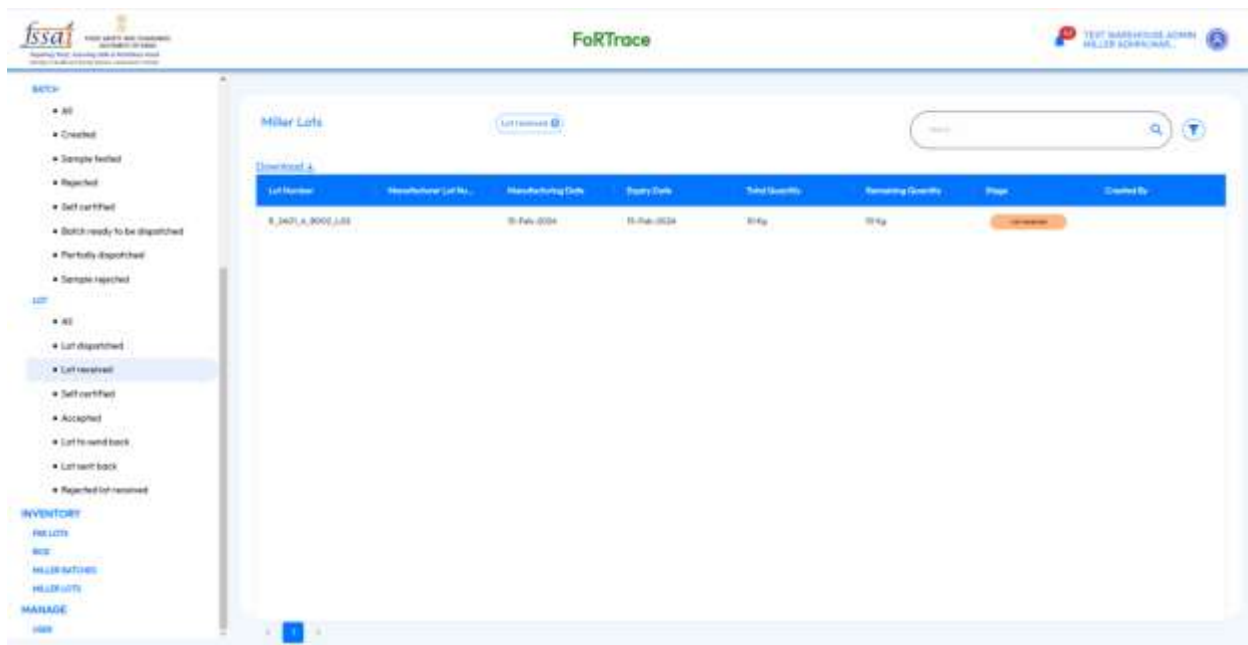

Figure 6: MILLER lots received

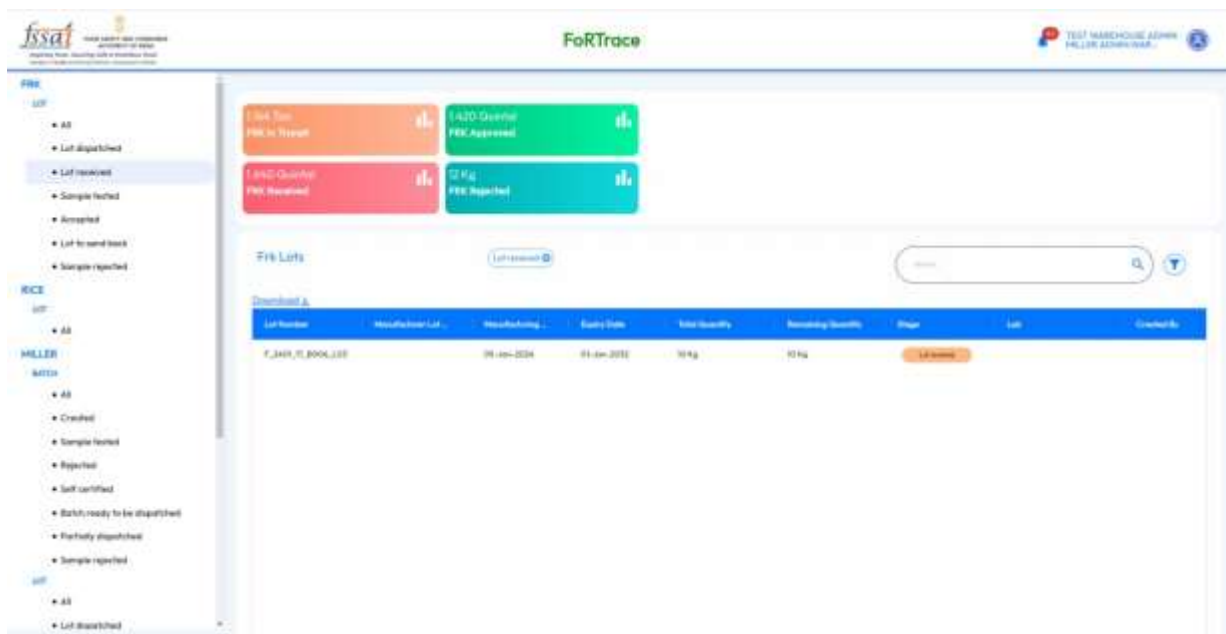

Figure 7: FRK lots received

- (v) Click on lot to see lot details page with possible actions of ‘Send sample to Lab’, ‘Accept’, ‘Test rejected ready to send back’ as shown in below image.

Figure 8: Option for Warehouse admin to accept, reject or Send sample to Lab for Miller

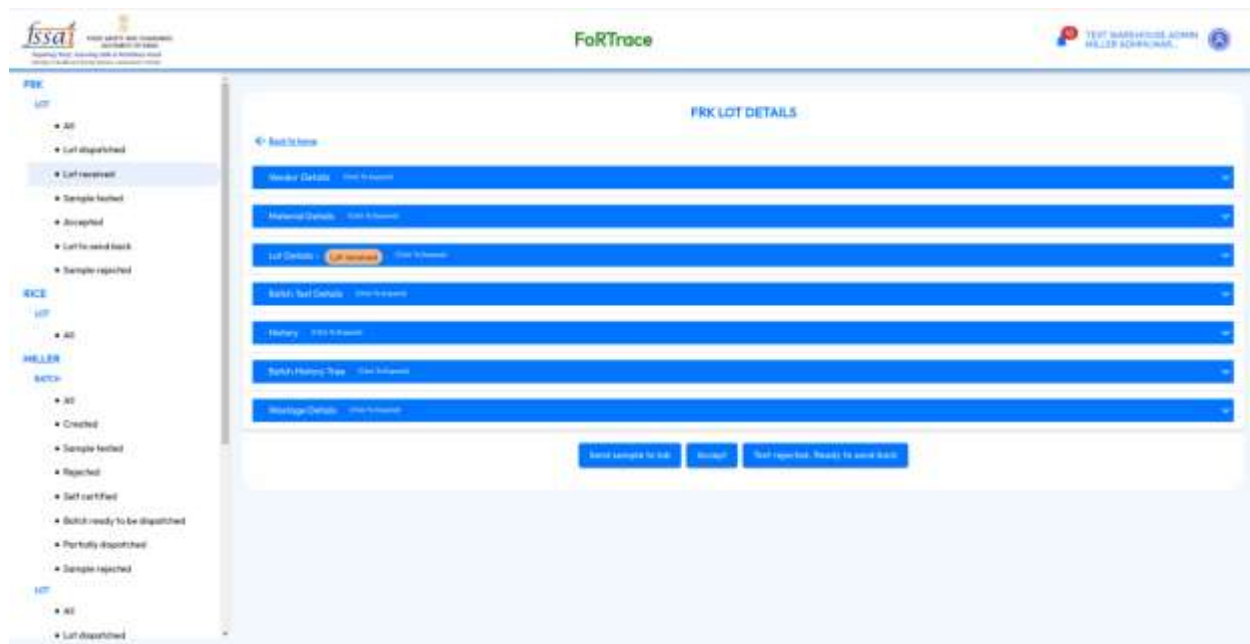

Figure 9: Option for Warehouse admin to accept, reject or Send sample to Lab for FRK

- (vi) If user click on **Send sample to Lab**, the sample will be sent to the local lab and lab will do necessary tests and publish the test report.
- (vii) If the report is satisfactory, after test lot will automatically accepted & showing the stage as "Accepted", if the report is unsatisfactory, after test lot will automatically rejected & showing stage as 'lot to send back'
- (viii) After clicking on Test rejected Ready to send back, an action will be shown on lot details page as 'Lot to send back'. Clicking on it will send the lot back to miller/FRK vendor.

- (ix) If the user clicks on Accept button as shown in above image. Then a popup screen will be displayed and the user will be prompted to enter approved date, enter comments and click on Accept.
- (x) Again one confirmation popup prompt will appear where the user have to click on the Yes button.
- (xi) Then success notification message will be shown as “lot has been accepted and is available for use” as shown in below image.
